

MEMORANDUM: 2017-02

DATE: February 6, 2017

TO: ATC-ERC Users

FROM: Jeff Clark, ATC European Registration Centre Manager

SUBJECT: ATC Code of Practice Update – February 1, 2017

The ATC Code of Practice has been updated and the February 1, 2017 version is available from the [ATC-ERC website](#). This version supersedes the previous version, dated January 1, 2015. The changes in this version relative to the January 2015 version are outlined in the “What’s New” Section. These include new tests in ACEA Oil Sequences 2016 together with various enhancements in clarity. The update has been prepared in consultation with ATIEL so that the ATC and ATIEL Codes of Practice are complementary. The latest version of the ATIEL Code of Practice is available on the [ATIEL website](#).

Please contact me if you have any questions.
